COMMENTS TO «FILIPPOV–NAMBU n -ALGEBRAS
RELEVANT TO PHYSICS»

N. G. PLETNEV

ABSTRACT. In this work the comments to the paper are given.

Keywords: Filippov n -algebra, Nambu bracket, supersymmetry, super p -branes.

After the publication of the survey of «Filippov-Nambu n -algebras relevant to physics» in Sib.Elec.Math.Rept.6: 272-311, 2009, I received several comments and suggestions concerning an incomplete citation of important contributions in this field of research. I gratefully accepted the comments of J.A. de Azcarraga, O. Hohm, C. Krishnan, H. Lin, J.-H. Park and C. Zachos and made the appropriate corrections and additions to the new version of the survey: e-Print: arXiv:1012.2629 [hep-th].
